## WORK EXPERIENCE

### Backend Developer

JC Buckman

Dec 2024 - Present | Lahore, Pakistan

#### Accomplishments / Tasks

- Develop internal software solutions for the accounting department to streamline operations.
- Design and implement RESTful APIs for system integration and data management.
- Work with Node.js and Express.js to build backend functionality.
- Conduct API testing using Postman and Thunder Client to ensure reliability.
- Collaborate with team members to understand requirements and deliver solutions.
- Debug and troubleshoot backend issues to maintain system stability.
- Document technical processes and API endpoints for team reference and knowledge sharing.

### Backend Developer

Mega Software

Dec 2023 - Dec 2024

#### Accomplishments / Tasks

- Built backend solutions using Express.js, Node.js, and MongoDB.
- Developed RESTful APIs and learned to create comprehensive documentation using Swagger.
- Designed MongoDB database schemas and understood data modeling principles.
- Performed thorough API testing and validation using Postman.
- Assisted in integrating APIs with frontend applications and resolving integration issues.
- Experience with version control, code reviews, and development practices.

## EDUCATION

### BS Computer Science

University of Engineering & Technology, Lahore

Sep 2019 - Dec 2023

#### Courses

- Data Structures
- Game Development
- Cloud Computing
- Operating System
- Database Systems
- Programming Fundamentals
- Computer Network & Security
- Object-Oriented Programming

## SKILLS

- ExpressJS NodeJS MongoDB SQL POSTMAN  
SWAGGER RESTful API GIT Version Control  
Agile Methodology Business Communication  
Problem Solving Team Collaboration JSON  
Authentication & Authorization HTTP/HTTPS  
API Integration SQL SERVER DB Query Optimization

## PROJECTS

### Temper

Backend Developer

#### Tasks

- Contributed to database schema design for web-based freelance hiring platform.
- Developed RESTful APIs using Express.js and MongoDB for user and job management.
- Performed API testing and validation using Postman to ensure system reliability.

## CERTIFICATES

### Cyber Security Essential

Microsoft & LinkedIn

Threat & Vulnerability Management, Information Security Awareness, Cybersecurity

Jul 2025

## LANGUAGES

### English

Full Professional Proficiency

### Urdu

Native or Bilingual Proficiency

## INTERESTS

- Cyber Security Backend Systems Database Design  
Software Best Practices
